

Dear Members

I apologise for the inconvenience of having register for the member's area again. The Committee wanted the same level of security for member's personal data and the clubs door codes etc as the last site and so I have had to build it into the new site – as Jim says it could not be carried over.

Easiest way is to use the same username and password as you used on the last site and follow the steps below: -

Go to <http://www.thesyc.co.uk/register.php>

Enter Username – **no spaces – make a note of it**

Enter Display Name – can be same

Enter Password – **no spaces – make a note of it**

Confirm Password

Enter Email – address

Enter Security Code as shown

Select <Register> button

I will then check you are a **current member** and approve your application. You will only need your username and password thereafter.

It is fairly straight forward but please let me know if you have difficulties and I will help.

Kind regards

Frank Bewley
